HENRY YOUTSEY'S CASE TO THE FRONT

DISCUSSION PRECIPITATED BY STATEMENT OF A PRISON COMMISSIONER.

The following statement given out by the Chairman of the Prison Commission has stirred up the Henry Youtsey matter again:

Frankfort, Ky., March 21.—Daniel E. O'Sullivan, chairman of the Prison Commission, gave out the following statement to-day:

"At the next meeting of the Prison Commission, Tuesday, April 4, I am going to present the name of Henry Youtsey for parole. I have not discussed the matter with my associates and I do not know what view they will take of it. But my duty is clear. The time has come when I must vote to give Youtsey the benefit of the parole law. He is entitled to it by length of service, by continuous valuable work for the State, by the provisions of the law, and by every dictate of fairness and humanity. He has served more than sixteen years for his crime. During my term of office we have paroled 2,300 convicts, guilty of every crime in the calendar, and at every meeting of the Prison Commission we parole some life prisoner who has served less than half the time Youtsey has served. The law under which he was sentenced entitles him to a parole after five years. He has served more than three times five years, and for twelve years he has been eligible.

"I believe in the parole law. It is a wise and merciful law. It has done more to promote discipline in the prison than all other influences combined. It should apply to Henry Youtsey as to every other convict, white or black.

"Youtsey's crime was the most dastardly in the long record that has drenched Kentucky in blood. Whether he fired the shot that murdered Wm. Goebel, or conspired to assassinate him, he was equally guilty and should have paid the extreme penalty. But the jury that tried him gave him a life sentence, and the law entitles him to parole. Youtsey was a mere boy in years, and the cowards who fired his wretched brain and sought to profit by his act are guiltier than he. They are all free, some driven in disgrace from their native State, others gaining political preferment for their share in the murder of Wm. Goebel, all of them beneficiaries of undeserved pardons.

"Youtsey alone is turned on the rack of a life imprisonment. I believe that the people of Kentucky, irrespective of party, want him paroled. I honor Justus Goebel for his devotion to his brother's memory. His loyalty and his self-sacrifice ennoble him. I do not want to open his wounds afresh, but under my conscience and my oath of office I must vote for the parole of Henry Youtsey."

The newspapers of Louisville and Lexington at once wired the two other members of the Board for a statement of their position. Both F. T. Hatcher and M. F. Conley replied that they would vote against the parole.

In response to a request for a statement of his position in the matter of paroling Henry Youtsey, M. F. Conley, Prison Commissioner, gave out the following to the newspapers:

Louisville, Ky., March 22.—"Only an unusual situation could induce me to make a statement about a parole in advance of the Board's action.

"I shall vote against the parole of Henry Youtsey, one of the conspirators and assassins of Governor Goebel, at any time the case may come before the Board while I am a member. I consider assassination the worst of all crimes. It is committed in deliberation, not in sudden passion. Only a demon can contemplate and execute this dastardly crime. The victim has no chance to defend himself, to adjust his life, to look for mercy, to adjust his material or spiritual affairs, or to send a last goodbye to his family. If the law has any right to inflict the death penalty, surely justice demands its application in all cases of assassination. Furthermore, I believe that in its relation to a people who have made laws to protect life and property, the pardoning of an assassin is a crime against the public.

"The fact that all the other assassins associated with Youtsey in his heinous crime have been turned free certainly does not furnish other officials an excuse for committing the same grave offense against justice and against all the guarantee of life that law can give. I would stand against the pardon of parole of any of Youtsey's guilty associates if I had a chance. The law makes an exception in his case. I don't make any ground upon which I would ever vote to parole any assassin. There is none in Youtsey's case. After having been proven guilty he confessed. Not before.

"I believe in the parole law, but the Board has wide discretion in its application and is supposed to consider the degree and circumstances of the crime. The assassination of Wm. Goebel and the events following it from the worst chapter in American history. The State was carried to the verge of civil war.

Youtsey entered the penitentiary in February 1901. He was then 27 years old, a mature man, well educated, the husband of a good woman. In 1912 he broke the prison rules and was reduced in grade, making him ineligible for parole consideration for nine months. Twelve years since the Warden has found it necessary to report cases of misconduct against him. He has more

desirable employment in the prison than most other convicts because he is better fitted by education and experience than almost any other man in there. Being a good stenographer he is assigned to office work because his services are worth more to the State there than elsewhere. He is well treated, as nearly all convicts should be.

Justus Goebel, fighting for his life daily against disease, a battle which began before his eminent brother was so rudely murdered, deserves more consideration in this matter at the hands of the officials of our State than all the assassins in or out of prisons. If sympathy and sentiment are to play any part in this case I don't see how it can rest elsewhere than upon this worthy brother, whose life, already carrying the burden of ill health, has been wrecked by the awful crime for which Youtsey has as yet paid only a comparatively light penalty. I deem it proper to state here, however, that no ward has come to me from Mr. Goebel about this case, nor to the Board since I have been a member, so far as I now recall. He has probably regarded such action as unnecessary."

At least one-half of the paroles this Board has granted were the result of a Court of Appeals decision, which left us no discretion. These were convictions under the 1910 law.

Fate of Assassins in Lawrence.

About thirty years ago an assassination occurred in Lawrence county. The victim was a poor man. Conviction on circumstantial evidence was made in the court, the sentence of death was imposed and later nullified by hanging, which was then the legal method used. The assassin's accomplice was given a sentence of life imprisonment and died in the penitentiary. We do not recall another assassination in Lawrence county since that. Certainly adequate punishment has a wholesome restraining influence upon men mean enough to commit assassination.

Gov. Stanley on Youtsey Case.

The Lexington Leader says: Governor Stanley this afternoon was asked what his views were regarding the parole of Youtsey. "That is a matter for the Board," he said. "I have troubles enough of my own without trying to decide questions which do not concern me. I think the Board is quite competent to attend to Youtsey."

TRACY IS MARRIED.

Cards announcing the marriage of Mr. Wm. D. Tracy to Miss Blanche Luddell Shirey, of Bluefield, W. Va., have been received here. The marriage occurred March 18th.

Mr. Tracy is a civil engineer, well known in this city, and a native of Winchester, Ky.

SUNDAY SCHOOL MAN.

W. J. Vaughan, the noted Sunday school man of Kentucky, was here en route home to Louisa yesterday, from a trip down in Central Kentucky. He says he was at Frankfort during the dying days of the legislature and dimly aided in the dissection of the capital building.—Ashland Independent.

The following marriage license was issued March 21st: Thomas Campbell, 26, to Ella May, 21. Both of Overton.

PUBLIC SPIRITED CITIZEN DRAGS ROAD

DAVID ELSWICK SETS LAUDABLE EXAMPLE IN LAWRENCE COUNTY.

We are glad to hear of the work of one enterprising citizen of Lawrence county in a direction that would solve the bad roads problem. If all others would follow his example.

David Elswick, living on East Fork, was out Tuesday with an improved road drag, putting the road alongside his farm into good condition. The rains had put this road into the same muddy, sloppy condition as all others in this county. His drag was chasing the water off of the road, smoothing the surface, and putting a crown on the road so that the next rain that falls will run off. The parties from Louisa who drove along there say the difference between that piece of road and all others they saw was wonderful.

The success of the road drag used as directed by the U. S. department of good roads, is being demonstrated in many places. In a few counties the farmers have taken up the matter and are not depending upon the officials to build and maintain roads. They are working in harmony and every farmer is dragging the roads adjacent to his farm. Any county will furnish the funds on such an arrangement as this. A few days work in this way in each year with a drag, used at the right time, would give Lawrence county better roads than four times the present amount of revenue can produce.

Here is a great opportunity for some of our enterprising citizens, with the aid of the county farm agent, to organize a movement of this kind.

MENTALLY UNBALANCED.

N. B. Ferguson, a well known school teacher of Wayne-co., is now in a Huntington hospital, undergoing treatment. His mind has been unbalanced for some time and the county has sent him to the sanitarium hoping that he may be fully restored.

He is a brother of Messrs. Lindsay and Monroe Ferguson, of this place.

REV. DARLINGTON ELECTED PRESIDENT

OF MORRIS HARVEY COLLEGE AT BARBOURSVILLE, WEST VA.

In a session which began at two o'clock yesterday afternoon and lasted until midnight in the parlors of the Hotel Frederick, the board of trustees of Morris Harvey College elected Rev. C. V. W. Darlington, of this city, president of Morris Harvey College to succeed Paul H. Willis, who was not an applicant for re-election. This is an announcement which will create a degree of surprise, which will amount to a sensation in the bounds of the Western Virginia Conference of the Methodist Episcopal Church, South, in which there is scarcely any other clergyman so well known as Dr. Darlington. The new president has for the last three years devoted his energies to the rebuilding of Morris Harvey College, the official educational institution of the Conference. When he concluded a pastoral charge at Johnson Memorial Church he accepted the post of Conference Secretary of Education. He held this post a year and the second year performed the duties in connection with those of presiding elder of Ashland district. During the present year his attention is being engrossed by the duties of the secretaryship. During these years he has done substantial work toward the creation of a \$100,000 endowment fund for Morris Harvey, while this year, through a campaign for one dollar subscriptions, he has practically lifted the floating debt of the institution.

Morris Harvey College is located at Harboursville, the former county seat, seven miles east of Huntington on the Guyandotte river.

Some regret was expressed that the step meant the retirement of Dr. Darlington from the ministry, but it was pointed out that many of the great leaders of Southern Methodism have come up through the church schools.

It was stated when the announcement of the election of Dr. Darlington was made that this would not mean any change in the policy of the school, the board being determined to keep on in the effort to keep the standards of the institution up to those of the church and the state.

U. V. W. Darlington was born in Shelby-co., Ky., August 3, 1870. He was educated in the common schools of his native county and at Kentucky Wesleyan College, where he was prepared for the ministry.

He was admitted to the Kentucky Conference of the Methodist Episcopal Church, South, in 1896 and was made pastor of East Mayville and Washington Stations. His next station was Millersburg, where he spent one year.

The next year he went to Covington, his first important station, where he spent four years thereafter transferring to the Western Virginia Conference to be pastor of the First Church at Parkersburg.

After Parkersburg he came to Huntington to be pastor of Johnson Memorial church. It was under the inspiration of his leadership that the church erected its present magnificent edifice. No pastor who has served in Huntington has been more deeply loved by his own people than was he—few if any have achieved such popularity without the bounds of his denomination.

He has continued to live in Huntington and is loved and admired by hundreds of people. No selection which could have been made in the matter of the presidency of Morris Harvey could have been more popular than this bids fair to prove.

Dr. Darlington was given his degree, Doctor of Divinity, by his alma mater, Kentucky Wesleyan, two years ago.—Herald-Dispatch.

LAWRENCE COUNTY MEDICAL SOCIETY.

This body held its regular monthly meeting on Monday last at the office of Dr. A. W. Bromley, this city. Those present were Drs. L. S. Hays, of Charley; Jay W. Carter, of Falmouth; W. W. Wray, of Richardson; and L. H. York and A. W. Bromley. Several matters of professional interest were discussed, and the Society adjourned to meet in Louisa on the third Monday in April.

MORE NITROGLYCERINE STORED NEAR LOUISA.

The Marietta Torpedo company has again deposited a considerable quantity of nitroglycerine near the spot of the recent explosion, two miles west of Louisa. Some objection is being offered by residents of that neighborhood. Certainly there should be better protection around the place than before in order to warn persons who may happen along and not know of the danger. It is too near a public road. What was called a magazine before was nothing more than a box fastened with a padlock, lying out near the road. Boys are liable to break into such a receptacle to see what it contains. More security should be required.

PRICE OF OIL INCREASED AGAIN.

Pennsylvania oil in Pennsylvania and West Virginia now brings \$2.60 per barrel, the highest price ever attained. The increase became effective last Friday.

In Kentucky all grades except Ragland increased at the same time to \$1.95, a record price.

MASONS ENJOY GOOD "EATS" AT CHAPTER MEETING.

Friday evening March 17th was the time for holding the regular convocation of Louisa Chapter No. 95, R. A. M. On this occasion large attendance caused by the fact that the Royal Arch degrees were to be conferred upon three persons who had already taken the degrees of Past Master, Mark Master and Most Excellence Master. The candidates for exaltation were Messrs. Ed Wellman, B. J. Calloway and W. L. Ferguson, all of this city. The degree was conferred in a splendid way by Companion Geo. V. Ginn, State Inspector of Ashland, assisted by several others of the same place, and local Companions. At the conclusion of the ceremonial part of the session, the auspicious event was fittingly supplemented by the serving of a superb luncheon, which consisted of "delicious turkey and this usual trimmings. This was the central attraction of the feast, for feast it really was, but going with this center piece was everything in the edible line which could be thought of to make the repast a bountiful and luscious one. It was partaken of by about forty companion Royal Arch Masons, who were unanimous in voting the whole affair a pronounced success. "Honor to whom honor is due." The host at this elegant "spread" was Companion Geo. R. Burgess, who provided and had served at his own expense this elegant midnight supper.

RAILROAD PLANNED FOR KNOTT CAPITAL.

Whiteburg, Ky., March 17.—Local people of Hindman and Knott county are starting a subscription campaign with which to build a narrow-gauge railroad line from the mouth of Jones' fork on the Beaver creek branch of the Chesapeake & Ohio railroad to Hindman, twenty miles, and, as planned, actual construction will start this spring. Already over \$100,000 has been subscribed, and other contributions of considerable size are yet in sight and will be made within the next few days. H. C. Francis, a young business man of Hindman, fostered the idea, while the business interests of the town are contributing liberally.

The new road will prove a great benefit to the town so far remote, and will give a market for many of the products of the county, while it will enable the merchants to get their goods at their doors instead of a twenty-mile haul over rough, almost impassable, mountain roads during the winter months. Hindman is sure of the road, and there is great rejoicing among the inhabitants of the long neglected town.

Mrs. Pigg said he died during a convulsion. Dr. B. Lehman, who was called after the man died, told the Coroner that death probably was due to natural causes. The Coroner will investigate.—Cincinnati Enquirer.

REDISTRICTING LAW TO BE FOUGHT IN COURT

NEW DISTRICT DECLARED TO BE PROHIBITED BY CONSTITUTION.

Frankfort, Ky., March 22.—Opponents of the new Thirty-sixth judicial district, which takes Wolfe out of the Twenty-third, Morgan out of the Thirty-second, and Magottin out of the Thirty-first, probably will institute proceedings as soon as the bill becomes a law to establish what they consider its unconstitutionality.

Section 128 of the Constitution says on this subject: "The number of said districts, excluding those in counties having a population of 150, shall not exceed one district for each 60,000 of the population of the entire State."

Outside of Jefferson county there are 2,026,685 people in Kentucky and dividing it by 60,000 allows thirty-three and a sufficiently large fraction for thirty-four judicial districts outside Jefferson county, according to the contention of the opponents of the new district.

BREATHITT DEMOCRATS

Among Those Most Bitter Against Change in Districts.

Winchester, Ky., March 22.—Hundreds of Democrats from the counties of Carter, Lawrence, Elliott, Morgan, Floyd, Knott, Magottin, Breathitt, Lee, Estill and Wolfe are urging Gov. Stanley to veto the bill for the establishment of the proposed Thirty-sixth judicial district, which was passed by the late Legislature, stating that it will render all the districts proposed to be changed Republican and cause the new Thirty-sixth to be a Republican district.

Breathitt county alone sent an urgent petition signed by 2,000 Democrats urging the Governor to veto the bill, which they say will work a great hardship and injustice on the good Democrats of all these counties. They further state that all districts from which the Thirty-sixth district is proposed to be taken are at present Democratic whenever good nominations are made by the Democratic party. Scores of Democrats have been passing thru Winchester during the last few days to protest against the measure.—Louisville Times.

Judge Cisco Protests.

West Liberty, Ky., March 22.—Circuit Court is in session here this week, with Judge Allan Cisco on the bench and Jno. M. Waugh as Commonwealth's Attorney. Judge Cisco is the first Republican Judge ever elected in this district, and this being his home town and county, a crowded court room heard his instructions to the grand jury. At the conclusion of his instructions he took occasion to pay his respects to the Legislature for their act in creating a new judicial district. The new net corpus Judge Cisco to leave this county, as the created district is composed of Morgan, Wolfe and Magottin counties.

TOWN MARSHAL KILLS YOUTH AT IRVINE, KY.

TESTIMONY CLOSING IN FORT GAY CASE.

Testimony was presented to the public service commission at the state house today by the Norfolk & Western Railway Co., in the case in which it is sought by petitioners at Ft. Gay to have the railroad passenger station moved from its present location to Bridge-st., 2,000 feet away.

This is probably the last testimony that will be taken in the case, in which the railroad company was represented today by H. C. Duncan and W. K. Cowden, of Huntington, while the petitioners were represented by R. C. McClure, of Louisa, Ky.

Witnesses for the railroad company were J. T. Carey, superintendent of the Scioto division and H. T. Reinicker, assistant superintendent of that division.—The Charleston Post.

This case pending before the Public Service Commission of West Virginia, contemplates the removal of the Fort Gay depot to Bridge-st., the east end of the Big Sandy bridge. The matter was before put up to the N. & W. and the request was refused, whereupon Messrs. L. T. McClure, Louisa, and W. L. Borders, Ft. Gay, plaintiffs, filed an indictment against the N. & W. railroad before the Public Service Commission, of West Virginia, at Charleston.

The first hearing in this case before the Commission was had at Ft. Gay, West Va., January 17, 1916, and the taking of testimony on the part of the defendant railroad company was concluded at Charleston last Friday. The case is to be argued, orally, before the Commission sometime in April.

G. W. HUTCHISON TAKEN BY DEATH.

Besides the widow there remain children and grandchildren. Interment was made Monday and was very largely attended. Union veterans from all parts of West Virginia being there.

JEFF NEWBERRY FOR DELEGATE AT LARGE.

Jeff Newberry, who is at the head of the large wholesale shoe house of Huntington, wants to go to the National Democratic convention at St. Louis as a delegate at large from the State of West Virginia. Here's hoping that he may be chosen. He is the type of man who should have a place in such delegations—a successful, progressive business man. He is a loyal Democrat, a clean, popular gentleman, and has the ability to acquit himself with honor wherever he goes. The county in this section of West Virginia should take up his cause and see that he is a member of the delegation from the State-at-large.

The maiden name of the deceased was Saunders. She was born near Lynchburg, Va., and moved to Kentucky about 1842. Mrs. Chaffin was a good woman, wife and mother. She had been a member of M. E. Church for many years, and was converted at a meeting held by Rev. French Rice in the winter of 1892. She was widely and favorably known in the Blaine country as an excellent neighbor. Her funeral was conducted by the Rev. Anderson Moore, a great number of friends and relatives being present. Notwithstanding her great age Mrs. Chaffin's mind was clear to the last.

The Roof of the World

"From Greenland's icy mountains,
From India's coral strand,
Where Africa's sunny fountains
Roll down their golden sand;
From many a distant river,
From many a palmy plain,
They call us to deliver
Their heads from sun and rain."

You will find CERTAIN-TEED affording equal protection from the snow and ice of the Arctic, and the sun and rain of the Tropics. It is literally "the roof of the world".

Making roofing is the General's chief business. He makes one-third of all the roll roofing made in America—thirty-nine other manufacturers make the balance. Such predominance is due to the General's ability to make the highest quality roofing at the lowest cost.

Every advantage that men, money, mills and machinery can offer is used to increase production, maintain quality and lower the cost. The result is that today CERTAIN-TEED, the world's best quality, costs less than inferior roofing cost ten years ago.

CERTAIN-TEED is made of the best quality roofing felt, thoroughly saturated with a scientific blend of soft asphalt, the formula of the General's board of expert chemists. It is then coated with a blend of harder asphalt, which keeps the inner saturation soft and prevents the drying-out process so destructive to ordinary roofing.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it lasts longer.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

pell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Husband and Wife Both

Saved From Suffering

I wish to tell you the good results myself and husband received from Dr. Kilmer's Swamp-Root. About eleven years ago I had a severe attack of La Grippe and was confined to my bed about eight weeks under the doctor's care. He pronounced my case kidney trouble and rheumatism and not receiving the results from the doctor's treatment I should have received, I decided to try Swamp-Root. After taking several bottles of Swamp-Root I was able to get up and attend to my work. About a year later my husband was affected with a severe attack of kidney trouble and doctored for some time with the doctors and received no benefit. Knowing of the good I had received, he decided to try Swamp-Root. His condition was such that he was confined to his bed and words cannot tell how he suffered, but after taking Swamp-Root he was relieved so he could go on with his work without pain. I wish to heartily recommend Swamp-Root to all persons afflicted with kidney and bladder trouble and you may publish this letter if you wish.

Your truly,

How Machines do Our Shorthand, Our Bookkeeping, Our Adding, Our Typing, Our Talking,

No hard work can be as accurate as Machine Work. Our Shorthand Machine—the Stenotype prints shorthand in just the same letters you learned when you were six years old. No hieroglyphics—just plain A, B, C's, which anyone can read.

Have you seen it? Well you have something of interest still to see. Make your mind up to look into this little device to-day. It will pay you to do it.

Don't stand still. Don't go backwards. Remember what you said about the Adding Machine, a few years ago.

Write us about your wishes, your ambitions. You will not be the first boy or girl, by many hundreds we have helped solve the problem of "How to make a living."

Are you thinking of training for a profession or a trade?

We used to say "The quickest way to success in any profession is learning Shorthand." We still say so, but by all means learn it the "Machine Way."

Our School has added Shorthand Machines just as we added, years ago, Typewriters, Adding Machines, Mimeographs, (And we have not forgotten to keep them MODERN), etc., because the Public demands new and up-to-date facilities for making the busy man's work easy.

Modern Bookkeeping is very little like what it was thirty years ago.

THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

The Old Motto.

We found it in the attic where it long had lain away;
The dust had veiled the letters in a shroud of misty gray,
A spider's web was tangled in its old fantastic weaves
Across the frame whose corners were hand carved in oak leaves.
The old discarded motto—it was worked in green and red
On perforated cardboard, and "God Bless Our Home," it said.
"God Bless Our Home"—and loving hands reach out from all the years,
The hands that always reached to help, that wiped away our tears,
And now we know full well that when this motto held its place
They meant the faded prayer that today we slowly trace;
That every morn of work to do, that every night of rest,
The good old home was by some mystic benediction blest.
—W. D. Nesbit.

To Our Young Lady Reader.

To the young ladies who weekly read this column, we are moved by the good spirit to write a few words concerning their duties to their mothers. It may be you have noticed a careworn look upon her face lately. Of course it has not been brought there by any act of yours; still it is your duty to chase it away. Would it not be a happy surprise to her if you should occa-

sionally bid her sit down and rest while you performed the arduous duties in hand? And how a tender kiss on her mouth will cause her dear face to brighten. Anyway you owe her a kiss or two. Away back, when you were a little bit of a girl she kissed you when no one else was tempted by your fever tainted breath and swollen face. You were not so attractive then as you are now. And through those years of childish sunshine and shadows, she was always ready to cure by the magic of mother's kiss, your little, dirty, chubby hands whenever they were injured in the first skirmishes with the rough old world.

And then the midnight kiss with which she soothed so many bad dreams as she leaned above your restless pillow, have all been on interest these long, long years.
Of course she is not so pretty and kissable as you are; but if you had done your share of the work during the last ten years, the contrast would not be so marked.
Her face has more wrinkles than yours, and yet if you were sick that face would appear far more beautiful than an angel's as it hovered over you watching every opportunity to minister to your comfort and every one of these wrinkles would seem to be bright wavelets of sunshine chasing each other over the dear face.

She will leave you one of these days. These burdens, if not lifted from her shoulders, will break her down. Those rough, hard hands that have done so many necessary things for you, will be crossed upon her lifeless breast.
Those neglected lips that gave you your first baby kiss will be forever closed, and those sad, tired eyes will have opened on eternity, and then you will appreciate your mother; but it will be too late.

Unkind words do as much harm as unkind deeds. Many a heart has been wounded beyond cure, many a reputation been stabbed to death by a few little words.

The woman who has a home and keeps it well, has no narrow sphere in life. In the home is the hope of the nation and the church.

This world is but the stepping stone of an immortal life. Every nation of our life touches on some chord that will vibrate in eternity.

Times are not near so hard with some men when they want a plug of tobacco as when their wives ask for a pair of shoes.

The strength of a nation is in the intelligent and well-ordered homes of the people.

No one is useless in this world who lightens the burdens of it for another.

How much of your success do you owe to your wife? It is only just to own this fact before her day by day. It will make her happy and keep her youthful.

He is a selfish being who, having trouble in his trade or calling or profession, always brings his troubles home for the purpose of making every one else miserable.

Three things to cultivate—good books, good friends and good humor.
Don't scold your wife. If you must scold somebody, scold us.

The just is fixed. No tears can wash away its facts. We should waste no regrets upon it; but from the wisdom of its very sins have taught us, we should start afresh on the race.

Let the path of life start whence it may, and let the way be steep and thorny if it must, there are sunny fields far up the heights for those who have faith and resolution to climb them.

REX, THE KING OF STALL- IONS

Will make the season at the barn of Frank Coburn, of Glenwood, Ky. and at such other places as Mr. Coburn may Select.

In offering the services of this magnificent Percheron stallion to the public I feel that I am doing my country a real good, and for that reason I shall offer no apology. When prospective buyers have come to look at your horses how often have they said, "if she were only a hundred pounds or so bigger!" And when you have hitched your little fine-boned team to a well loaded wagon and run into a mud hole and stuck and had to jump down into mud knee-deep and carry out a part of your load and then get a rail and lift a wheel—and perhaps a horse—how those same words have forced themselves upon your mind, "if he were only a hundred pounds or so bigger!" To obviate such difficulties as this I am offering you the services of the only pure-blooded Percheron stallion ever owned in this county; and having bought a farm in Greenup-co., I shall, in all probability take him to it another year.

This horse was raised by W. C. Glenn, of McConelsville, Morgan-co., Ohio, and sold by him to M. M. Chaffin, of Pataskla, Licking-co., Ohio. I bought him from Mr. Chaffin. In a letter written me by Mr. Glenn and dated Nov. 2, 1915, speaking of Rex, he says "he is a fine breeding horse. It was one of his colts that took first at our county fair this fall and there were eleven entries; and he got first last fall as a breeder, showing five of his get." Mr. Chaffin, owning ten stallions after selling me Rex, says, "he was the surest horse in my barns." He says 84 mares were bred to him last season.

Rex is registered by the Percheron Society of America as No. 73510. This society is incorporated under the laws of Illinois and approved by the government of the United States. Their certificate of pedigree will tell you that Rex is a bay; star; black spot on left hip; that he was foaled April 28, 1909; that he was sired by Hodgson's Chief 47627, by Ottawa Duke 26280, by Confident 3647 (397); by Brilliant 1271 (755); by Brilliant 1899 (756); by Coco II (714); by Viens Chaslin (713); by Coco (712); by Mignon (715); by Jean Le Blanc (739).

Dam: Belle 45642; by Lafayette 11443; by Caporal 8151 (7961); by Henri Le Blanc 4542 (3433); by Rustique 3601 (624); by Vigoureux (1392), etc. For further particulars write the secretary of the society.

We will try to exercise prudence in avoiding accidents; but we will not be responsible for any damages that may occur, as they are liable to occur in almost all cases of breeding horses.

TERMS:—\$15.00 to insure living colt. But when a man owning more than one mare breeds them he will pay \$15.00 for the first colt and \$10.00 for each of the others. Money due when colt is foaled or when the mare is traded before foaling. I want good mares and good men. No horse-swapper need apply. (The cut was made from a picture made when the horse was 5.)

ANNOUNCEMENTS.

WM. TAYLOR, of Glenwood, announces that he will be a candidate for Sheriff of Lawrence county, subject to the action of the Democratic party in the next primary election at which candidates for Sheriff are to be nominated.

We are authorized to announce Congressman W. J. FIELDS, of Crittendon, as a candidate for re-election, subject to the action of the Democratic party at the primary to be held in August, 1916. Your support is respectfully solicited.

Friday, March 24, 1916.

Only two Republicans voted against the bill that created a new and unnecessary judicial district in Eastern Kentucky. The others missed a great opportunity to secure a most effective campaign weapon.

The United States troops in Mexico are reported to be near the supposed location of Villa and hope soon to capture the bandit. Indications of the outcome of this movement are not very favorable from all stand points. Many Carranza followers seem dissatisfied with the presence of American troops and serious trouble may yet follow.

At his home in Lee's Summit, Mo., Cole Younger, famous outlaw of the border days, died Tuesday night after a lingering illness. He was 72 years old. Among the robberies he participated in was that of a Russellville, Ky., bank in 1868, when \$17,000 was taken. Also, a Huntington, West Virginia, bank robbery.

PETROLEUM OPERATION DURING PAST WEEK SLOW.

Barbourville, Ky., March 19.—Kentucky-Tennessee petroleum operations have made slow progress during the past few days, new production being lighter and completions fewer than usual. One exception was a strike showing up for 150 barrels daily in the Allen-co field, this being the only large well drilled during the week.

Operating half a mile ahead of the defunct area an Allen county company struck a genuine gusher, oil going over the top of the derrick. This well, one of the best ever drilled in the county, indicates an extension of the pool and will create room for many additional ventures. Only one other strike is reported from Allen county for the week, a moderate-sized oil being drilled within the productive limits.

Estill county, which has featured Kentucky operations for several months, did little in new production for the week, four new wells with a yield of about eighty barrels being reported. Bad roads account for the slump in completed work.

The only noteworthy completion in the northeastern district was a well of fifteen barrels' capacity about a mile removed from the Buskville district, Lawrence county. This strike will stimulate the search for extensions. The only completion in Morgan county was a duster. No new completions are reported from Wolfe county.

Production for the week approximated 10,000 barrels, an increase of about 2,000 barrels.

REPORT OF HOME DEMONSTRATION WORK.

MONDAY:—Meeting at Yatesville school. Great interest was shown by few present and run sure one of the best clubs should be there.

TUESDAY:—Through the East Fork neighborhood interest was shown and there is promising material.

Glenwood was visited and has a promising outlook if the girls will just become interested.

WEDNESDAY:—Fallsburg. Found interested Demonstrator and am sure the people of Fallsburg should profit by the words of the past season and also by the coming one.

Misses Collinsworth are the kind of demonstrators I like to find, willing to tell to others that which they have learned.

THURSDAY:—An office day of this week. Shall be glad to receive calls, both phone and personal calls from those interested.

FRIDAY:—At 10 o'clock shall meet with Louisa Public School to organize clubs. Also, hope to organize at the Normal and Callahan school.

SATURDAY:—At Kise. Shall be glad to meet all mothers and girls of community at Mr. Lee A. Garrett's.

MISS PAULETTE DAVIS.

KILLED BY MOTORCYCLE.

Ashland, Ky., March 20.—Samuel, the 6-year-old son of George Couch, while crossing the streets was run into by Russell Campbell, who was riding a motorcycle and was so badly injured that the child died before the automobile in which he had been taken could reach the hospital. The accident happened in front of the child's home. The father of the child came here three weeks ago from Beattyville, Lee-co, to work at one of the public works. The child will be taken back to Beattyville for burial.

The foregoing is published not only as a matter of news, but as a warning to the speed maniacs of Louisa whether they be automobilists, motorcycleists, or horsemen. When the streets are in fair condition scarcely a day passes without some violation of law against fast riding and driving. At times there seems to be no utter disregard on the part of some of our human life. True, no accident like the one narrated in

the foregoing has ever occurred in this city, but no one knows when such things may happen here unless riders and drivers pay more attention to rights of pedestrians.

CORPS AGAIN AT GILBERT.

The reappearance of a big corps of engineers at Gilbert, Mingo-co., and working on the Guyan river, has with-in the past few days served to revive reports that plans for extensive railroad development in the Logan-Wyoming-Mingo field are impending.

There is apparently no reason to disbelieve that tripartite extension converging on Gilbert have been abandoned, and some authoritative predictions from sources apparently close to the statement that work would be started within sixty to ninety days. Previous reports were to the effect that the Chesapeake & Ohio would extend its line from Man to Gilbert, the Virginian from Mullen to Gilbert, with a Norfolk & Western extension from Warrandliffe. Maps of proposed routes have been filed, it is said. Apparently connection with eastern Kentucky is also included in the plans.—Herald-Dispatch.

PLENTY OF ASPIRANTS.

That the Republicans intend to have a general free-for-all in the race for Judge of the Court of Appeals in the Seventh district this year, is evident from the number of announced entries in this only in the game. These include Judge H. C. Banker, of London; Judge A. J. Kirk, of Paintsville; Judge G. W. Courley, of Beattyville; Judge F. M. D. Sampson, of Barbourville, and former Senator H. H. Smith, of Hindman. S. S. Willis, of Ashland, is another prospective aspirant for the appellate bench in this district and others are yet to come. The Seventh Appellate district takes in practically all of Eastern Kentucky, and it is normally Republican by a big majority.—Louisville Times.

MENTIONED FOR PLACES.

Since the Legislature has created the new Thirty-sixth judicial district of Magoffin, Morgan and Wolfe counties speculation has already begun as to who will get the appointments as Circuit Judge and Commonwealth's Attorney of the new district to serve until the regular election. Former Circuit Judge D. W. Gardner, of the old Magoffin-Kaott-Floyd district, is regarded as a strong probability for the bench of the new circuit, and State Senator Charles D. Arnett, of Morgan county, is a "hot tip" for the first Prosecutorial.—Louisville Times.

AMOS DAVIS.

West Liberty, Ky., March 20.—"Uncle" Amos Davis, of this city, died last night after about two weeks' illness with grip. He was 82 years old, and the oldest Mason in this county and the oldest traveling man in this section of the State. He was also prominent in politics, having been Sheriff and County Judge of this county, and received the Democratic nomination for Congress in this district, but was defeated by John W. Langley.

Carey, of this place: The Carey-Reed Company, of this city, received notification today that it had been awarded the contract by the Maysville city council to construct Second-st. in that town with asphalt. The contract will comprise approximately 15,000 yards of sheet asphalt and the cost will be about \$45,000. It was stated that the office of the company here today that work on the job would be begun at as early a date as practicable. The company is now completing a contract near Charleston, West Va., and will move its machinery from there to Maysville.

PENNSYLVANIA OIL

Reaches Highest Price Paid For It in Twenty-One Years.

Pittsburg, March 17.—Another advance in the price of crude oils at the opening of the market this morning carried the Pennsylvania grade to \$2 69 a barrel, the record, which was last paid on April 13, 1895, when it was maintained for only 24 hours. On that occasion it reached to \$2 40, but there is no such movement in prospect now according to leading oil interests.

Other new prices named today were: Cabell, \$2 12; Mercer black, Newcast and Corning, \$2 10; Somerset, \$1 95; and Ragland, 90 cents. This is an advance of 10 cents a barrel on each grade except Ragland, which advanced five cents.

Because of repeated advances through the past several months to increase the supplies of crude available for refiners is given as the cause for the advance. Drilling has been resumed through the principal producing sections of West Virginia and Western Pennsylvania, but no important wells have been reported. Refiners, however, expect to replenish their tanks, they say, from the oil held in storage and which they felt was being held by producers for \$2 50. Now they feel that little short of \$3 a barrel will move this reserve.

THE HOME DEMONSTRATOR.

Miss Davis, the new county Home Demonstrator, has set about her work with an intelligent industry which is very commendable and which will no

doubt be productive of much good. Since the hour she began her labors in Lawrence county she has employed every week day in attending to the business which she came here to do. Bad weather and worse roads did not stand in her way for one moment. She is making a house to house campaign, becoming acquainted with the people and everywhere making friends. On Saturday last for instance undeterred by mud and wet weather she went to the Anderson Moore neighborhood on Little Blaine and at the Lebeck school house addressed a crowd of about forty people, speaking on the work which she expected to do and showing as far as she could in words, fitness for the position. She will visit every part of the county, and at the proper time make practical demonstrations of her work.

Mr. Young, new County Agent, is also a very busy man and shows his knowledge of his business and a familiarity with all its details.

At Williamson, West Virginia, Harley E. Hope, local contractor, was awarded the contract for the erection of a two story brick building, to be used as a high school, for the approximate sum of \$17,000.

It will be recalled that a tax levy was voted by the district last year appropriating \$22,000 for this purpose but until recently no active steps have been taken in the matter.

The high school will be located on the district public school grounds. It will add greatly to the development of education interests in the county.

Smith had quit work and got on the freight train to ride up to the depot and it was when he jumped off the train that the accident occurred. He was taken to the Keller hospital.—Ironton News.

ROVE CREEK.

The death angel visited our locality on the 14th day of March 1916, and entered the home of Mr. and Mrs. Dee Vanhorn and claimed their dear little baby, Charlotte See. She was a year old and was a bright and sweet loving little one, loved by all who knew her, and leaves father, mother, two sisters and four brothers to mourn her death. Weep not, dear parents, for Charlotte for she is at rest. Prepare to meet her on yonder peaceful shore where no pain nor death can enter and sorrow be no more.

The golden gates were opened wide, A gentle voice said "come," And with farewells unspoken She calmly entered home. A FRIEND.

I was treated for Cancer 40 days by one of the best doctors in the country and got no relief, then I tried doctoring but I was well in 30 days. That was Oct. 1914. He has cured 6 others I know, besides others I heard of and he will cure you if you have cancer. Give him a trial.
Yours respectfully,
I. M. LESTER.

Huntington, W. Va., Sept. 1, 1915.
To whom it may concern, and I should concern every person that has a cancer: I speak from experience no person need fear to have Mr. H. Huff, of Fort Gay, W. Va., treat their cancer. I had a rose cancer on my temple about 6 in. circumference run all over the surface, the edges rolled over to my cheek. Mr. Huff treated it last April and I am happy to say it is all gone, cured sound and well. He has the remedy and knows how to use it. I am now 73 years old. I would advise all persons having cancer or symptom of cancer to have it treated at once. It is easier cured and saves a great deal of suffering and the danger of its being absorbed in the blood. mh24-Imo.

AFTER TWO YEARS

LOUISA TESTIMONY REMAINS UNSHAKEN.

Time is the best test of truth. Here is a Louisa story that has stood the test of time. It is a story with a point which will come straight home to many of us.

William G. Shannon, Maple St., Louisa, says: "For years I had been a sufferer from pains through my back and I had trouble in sleeping after getting up. I was restless and when I got up in the morning, I was tired. The kidney action was irregular. Finally I used Doan's Kidney Pills and they gave me relief. The action of my kidneys became regular and the pains and aches left. (Statement given June 21st, 1909.)"

OVER TWO YEARS LATER, Mr. Shannon said: "I am glad to confirm what I said about Doan's Kidney Pills when I endorsed them before."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Shannon has twice publicly recommended. Foster-McIlburn Co., Props., Buffalo, N. Y.

A PRAYER FOR THE NATION.

"Duty is the noblest word in the English language," wrote the great general and the greatest Christian, Robert E. Lee.
Duty is national as well as individual.
Some time "into every man and nation comes the moment to decide" between the right and the evil side, and the poet.
In this supreme hour in the life of this nation, when its decision for the right or the evil side will be fraught with consequences beyond all human power to foresee, when upon its decision may rest the destiny of all civilization for centuries to come, every honest-hearted man and woman may well pray that President Wilson shall be divinely guided and given power to know the right and to do it, regardless of all other considerations.
Well may every American daily and hourly pray:
"Teach us, O Almighty Ruler of the universe, what is our duty! We ask not to know which is the easier road, in which to walk. We ask not for peace, with all its comforts and its prosperity. We ask not for war, with all its indescribable horrors. We only ask, O God, that as a nation we may know Thy will. We only ask that we may know our duty and have strength and courage to follow where Thou leadest."
This should be the prayer of every Christian heart, of every man who wants to know the nation's duty, not our ease, not our comfort, not our prosperity, but our duty and our work.
This should be the nation's prayer, for the nation that seeks only its own prosperity and safety may hear the verdict, "Thou hast, this night shall thy soul be required of thee!"
We are living in the most momentous time since all the years of the Sun of God gave His life for others.
He sought not His own comfort nor His own life.
If duty demands it, shall a nation do less than die the incarnate Son of God?—Manufacturer's Record.

TOWN JUDGED BY NEWSPAPER.

"Show me some copies of the paper published in your town and I will tell you some facts about it and your people."
The man who said that was an active business man, who was considering an expensive proposition. The information he wanted was all in issues of a weekly newspaper.
He wanted to know about the stocks of goods carried by the merchants, to judge of their business capacity by the style and amount of advertising they employed—the paper would show him.
He wanted to know something of the social activities of the town, which the paper would show him.
He wanted to know where the pursuits of the people in the town and the condition of the surrounding country. The paper would show him.
He would

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

GIVE "CALIFORNIA SYRUP OF FIGS" IF CROSS, SICK, FEVERISH, CONSTIPATED.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits. See that it is made by "California Fig Syrup Company." Refuse other kind with contempt.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT GLOSSY WAVY

25-CENT BOTTLE DESTROYS DANDRUFF AND DOUBLES BEAUTY OF YOUR HAIR.

Within ten minutes after an application of Danderline you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderline immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderline and carefully draw it thru your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderline from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderline.

EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

INSTANT RELIEF! "PAPE'S DIAPESIN" ENDS YOUR STOMACH TROUBLE FOREVER.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stultidum lumps head dizzy and aches; belch gases and acids and vibrate unlighted food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

Men are supposed to be superior to women. But you never saw a woman standing on a street corner cleaning her ears with a match.

Any woman can tell an Oriental flug from one made in Lowell, Mass. Why it is quite simple. If the rug is marked \$9, it is the domestic article, but if it is marked \$99 it is Oriental.

The best way to make a girl marry a no-account man is to have her people knock him every day in the week. If they came to her and praised him every day she wouldn't have any use for him.

EAST POINT.

Engineers for the R. & O. began a survey last week from the mouth of John's creek up that stream to Brandy Keel, where a connection is made with the survey coming down. This indicates there may be some changes in the proposed new route.

OBITUARY.

George Cyrus, daughter of J. M. and Mintie Cyrus, was born in Lawrence county, Kentucky, January 3, 1896.

She died at her home near Pickerington, Ohio March 10, 1916, aged 20 years, 2 months and 10 days. She professed faith in Christ and united with the church in the year 1915, and was a very useful and earnest christian. Her gentle christian spirit will ever be a silent and effective teacher. Her life was a life of love and devotion. For a number of weeks previous to her death she was a great sufferer, but the fortitude with which she endured until the end will ever be a benediction to those who visited and ministered to her. Although so young death to her no frightful foe; her only regret was that her loved ones would grieve for her. She embraced her father and mother and then requested her uncle to pray that she might fall asleep in the arms of Jesus and be at rest. The funeral services were held at the M. E. Church in Pickerington Monday, March 13, at 2 p. m. The funeral corte-

ge was an unusually large one, the entire Pickerington High School of which she was a member being in attendance. The pall bearers were selected from her class and schoolmates. Her body was buried in the Pickerington cemetery beneath a mound of flowers.

MRS. O. V. B., Columbus, Ohio.
